

Now recruiting: Community members for the Lambeth Neighbourhood Health and Wellbeing Alliance

- ▶ **Do you live in Lambeth and have experience of its health and care services?**
- ▶ **Are you passionate about working together to improve health and wellbeing for local people?**

If so, we could be looking for you.

We're looking for people living in Lambeth, who have experience of using its health and care services, to help the Lambeth Neighbourhood Health and Wellbeing Alliance. As part of Lambeth Together, we work on improving the health and wellbeing of local people, and plan to do this by bringing together services and activities by local area, or 'neighbourhood' and in the community. This will help services to work in a more joined up way.

We believe that organising health and care around neighbourhoods helps staff and local people to understand the health and wellbeing needs of their community, keep people well and make sure everyone gets equal access to the services they need.

We also believe that the voice of people living in Lambeth is vital to achieving our ambition. Your role as community member would mean you can have a say in all parts of our governance structure, such as working groups, advisory and decision-making groups.

For more information on the community member role and how to apply, contact us and we'll send further information to you.

Email: Natalia.Sali@healthwatchlambeth.org.uk

Tel: 02072748522

The closing date is end of 6th September.
