Lambeth Before I Die + 14 + 1m

Before I Die... share your future care wishes

Welcome to the Lambeth Before I Die Wall, part of a global project that invites people to contemplate death, reflect upon their lives and consider the things that matter to them. What would you want other people to know if you were too unwell to tell them? What care or treatment would you want and what wouldn't you want? Share your thoughts. Add your wish. We'll approve your post and it will appear!

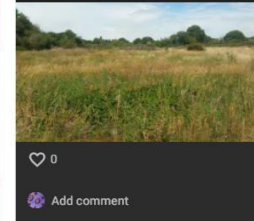

This Wall is hosted by Lambeth Advance Care Planning Consortium. We can help you think ahead and record your future treatment and care wishes so that people will know what you do and don't want if you were unable to tell them. Find out more.

I don't want to be on my own. It

Laughter and happy memories
Before I die I need to laugh, a lot. And spend more time in nature. And give lots of love. So could I die laughing on a picnic with people I love, please?

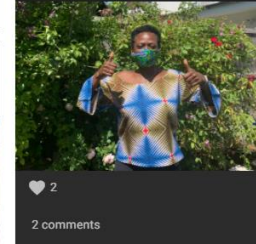

To have a playlist of all my favourite music playing!

I'd like to see my friends, relive shared memories and tell them how much they have meant to me.

....is to have warm feet otherwise I can't sleep!

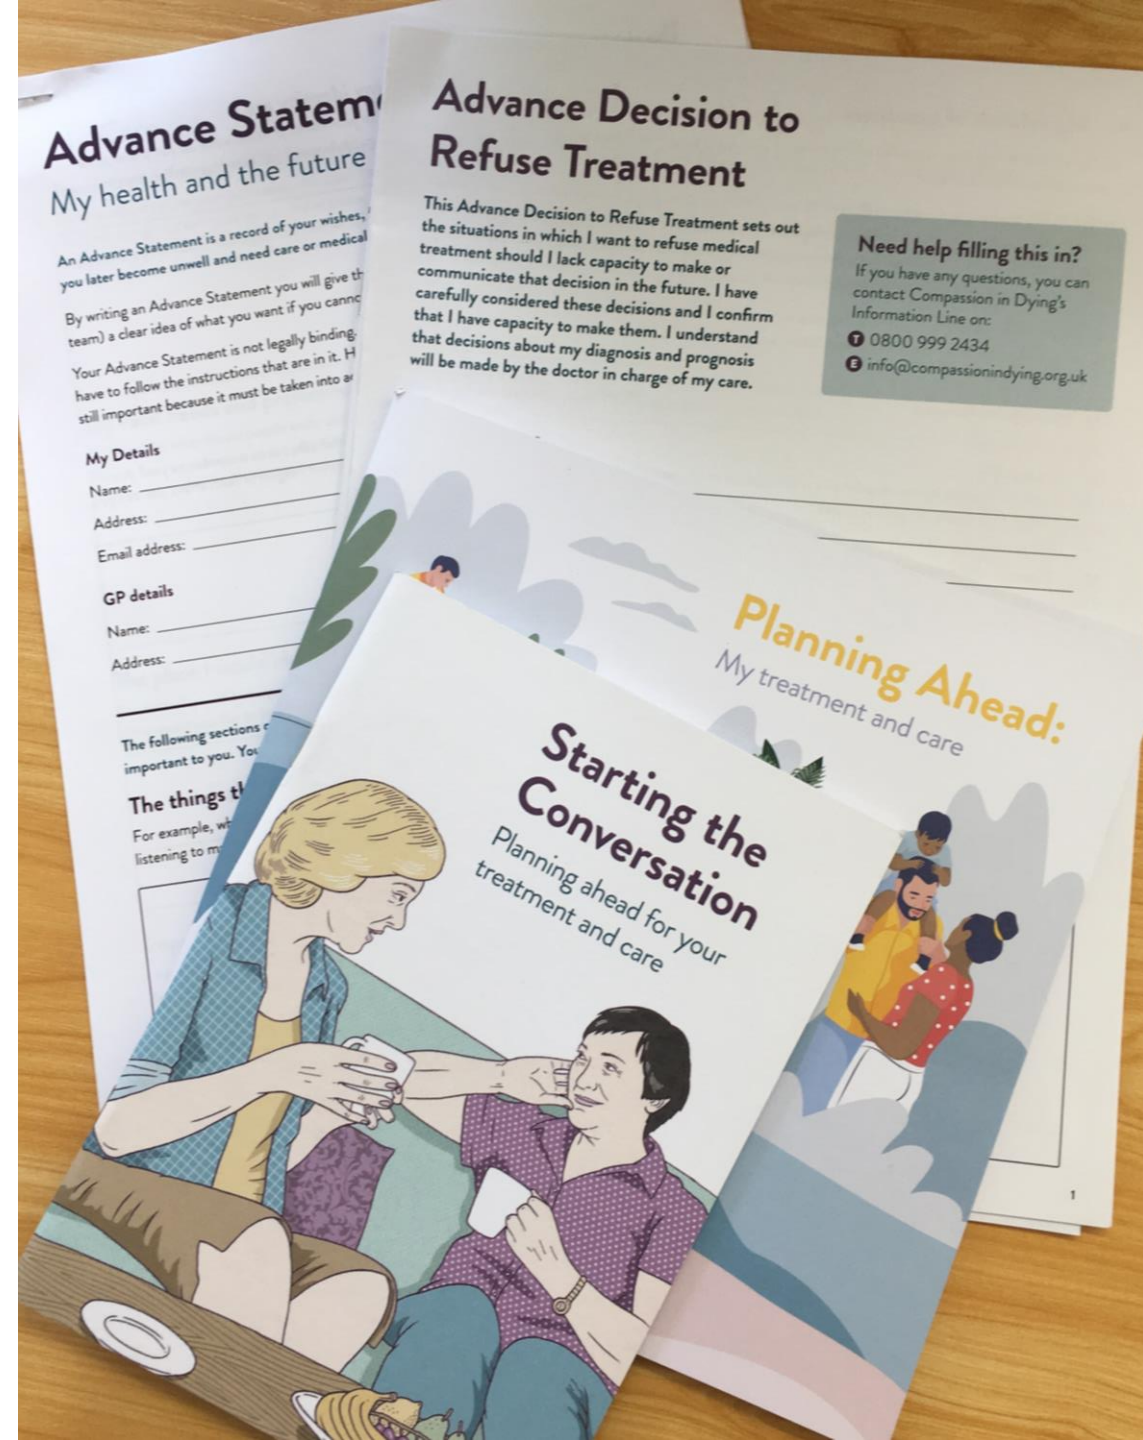

Keep my natural hair please!
Shave all my hair off if you like but under no circumstance should anyone (even if pressured by my family) put a wig on my head in life or in death.

Lambeth Advance Care Planning Consortium 4mo
Thanks for your post. This is a great example! You can write it down in something called an Advance

The service

- 1:1 support (currently by phone)
- Choice of advance statement and/or advance decision and/or LPA for health and welfare
- Attached to MyCMC record
- Clinical queries to relevant practitioners
- Referrals via **Age UK MYcommunity** referral gateway (SAIL)
- Delivered by trained staff and volunteers from project partners

Referral points

- Interactive practitioner briefings:
 - Link workers
 - Community Connectors
 - Social worker teams
- In-service ‘ACP supporters’:
 - Care homes
 - LD support agencies
